Experiment -1

AIM: To create an AWS free tier account to provision the resources.

Description:

The AWS Management Console is the web interface used to access and manage AWS services. In this experiment, an existing AWS account was used to sign in and verify that the console was accessible. The account menu displayed the account details, and the console home page confirmed successful sign-in. Free Tier availability depends on account eligibility and the limits of each service.

Steps:

1. Open the AWS Management Console sign-in page.
2. Sign in using the existing AWS account.
3. Confirm that the AWS Console home page loads.
4. Open the account menu in the upper-right corner.
5. Verify that the account menu displays the account name and account details.
6. Record the console home page as the output for this experiment.

Output:
